EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas P. Mueller on February 28, 2007.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 12-14 have been labeled as PRIOR ART. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Sadlo et al (US 4,486,738), Negro (US 5,334,968), Collins (US 5,548,268), Lin et al (US 5,850,171), and Kuriyama (US 2006/0220783).

The following is an examiner's statement of reasons for allowance: allowance of claims 1-10 is indicated because the prior art of record does not show or fairly suggest a fix resistor network having recesses provided between the terminal electrodes, wherein as the pitch between the terminal electrodes along the longwise sidewall of the network substrate being at least 0.5mm, each recess has the width along the longwise sidewall from 0.44 to 0.48 times the pitch (i.e., from 0.22mm to 0.24mm) and terminal electrode-forming areas between the recess have the width along the longwise sidewall from 0.56 to 0.52 times the pitch (i.e., within the range of 0.26mm to 0.28mm) as recited in claim 1, or as the pitch between the terminal electrodes along the longwise sidewall of the network substrate being not more than 0.4mm, each recess has the width along the longwise sidewall from 0.525 to 0.625 times the pitch (i.e., from 0.21mm to 0.25mm) and terminal electrode-forming areas between the recess have the width along the longwise sidewall from 0.475 to 0.375 times the pitch (i.e., within the range of 0.15mm to 0.19mm) as recited in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
